March 13th, 2003

1	Checking of text material avaliable	
	The developed material was observed from the point of view of multimedia support and long distance presentation.	All

March 14th, 2003

	Topic	Action
	Preparation of internet course	
1	Milan Veljkovic presented possibilities of multimedia studio at LTU. The following features were discused video and voice enhancement of the course using electronic blackboard on-line connection with other classrooms (distance learning)	
2	Mr. Rijk presented example of educational programme for welding (on CD)	
3	the course will be based on the printed version of the publication (introduction of the chapters, questions and answers) in html format it will be enhanced by additional materials (photos, videos, animations, simple excel sheets, worked examples). The procedure for supplying these materials is described in Decisions the excel sheets should be simple application of the procedure and should act as "live" pictures to illustrate the problem the worked examples should demonstrate approach to solution of the question. Application of simple formulas from Eurocode is not necessary to demonstrate in worked example	All

tests and questions for students will not be included. (The course is aimed as help for experienced users searching answers to specific questions, not basic course for undergraduate students)

the course will be edited in Prague and translated into local languages, the deadlines for translations and other actions are described in Decisions

software RoboHelp can be used for preparation of the course.

March 15th, 2003

1 Organization of pilot internet course

Pilot internet course will be organised in October (3rd or 11th) at 15.00 CET. The course will be broadcasted from Luleå. Content of the internet material will be presented at the lecture in about 45 minutes. All partners are in charge to organize audience at local sites and contribute to discussion. All necessary instructions to establish connection for on-line lecture will be provided by Milan Veljkovic. For details see Decisions

Velikovic
