Statement concerning creation of degrees

The University of Minho is a public higher education institution holding statutory, scientific, pedagogic, administrative, financial and disciplinary autonomy.

The University of Minho awards graduate, master and doctorate degrees, the title of aggregate professor and other certificates and diplomas, as well as the equivalence and recognition of academic qualifications.

The University of Minho has full autonomy to create new courses. For a new degree to be officially recognised/registered, it has to be ratified by the Ministry of Science, Innovation and Higher Education, once it has been approved by the University Governing Bodies.

The University of Minho already has an Integrated Masters in Civil Engineering with several areas of specialization. A new Masters in Structural Analysis of Monuments and Historical Constructions is under creation. At the moment the course proposal has already been approved by the Scientific Council of the Department of Civil Engineering and the Scientific Council of the School of Engineering. We expect its registration at the Ministry of Science, Innovation and Higher Education in October 2006.
